Sudharshana Chakra Chart

Sudharshana Chakra Chart is a Composite or Combined chart with three layers. The outermost layer is Surya Lagna Chart, The Center Part is Chandra Lagna Chart and the Innermost layer is Lagna Chart. Detailed insight about Sudharshana Chakra Chart is given in *Brihat Parashara Hora Shastra, chapter-74*. An Astrologer can make use of this chart to analyse a person's general welfare. The arrangement of planets in each layer of this chart is in a way to match a person's **Soul** (Surya), **Mind** (Moon) and **Body** (Lagna). When planets are better aligned in terms of houses, aspects, benefic/malefic conjunctions etc, more he/she will be balanced in life

Note: Aspect or Drishti of **Rahu** and **Ketu** are considered a matter of debate. Most scholars believe that shadow planets do not cast Drishti or aspect like the way actual planets does. Shadow planets are known as Karmic Planets, influencing our daily life and thought processes. Rahu and Ketu always stay 180 degrees apart and function on opposing energies' principles. You may compare the significance of shadow planets to popularly known yin-yang principles. *Feelastro* is of the opinion that Rahu only casts effective aspect over 180 degree or 7th house and Ketu do not cast any aspect.

Aruda Report

Aruda is considered very important in astrology. An astrologer uses this valuable piece of information while making predictions related to matters involving a person's public or social interactions and affairs. Aruda pada is **Your social or public image**. How others perceive you is an important matter. If you are a celebrity, social worker, business person, professional or anyone whose social acceptance matters, then your Aruda padas can give you a clear insight regarding how others see you in this material world. **For example**, your Lagna shows your **real self**, and your Aruda Lagna shows **how others think about you**. In this new world, where people are becoming increasingly concerned about their social life, social acceptance and social image, the Aruda Padas are getting higher precedence than many other things in astrology.

According to others, since the 5th house is your Aruda Lagna, you are a lucky person who is also very learned and intelligent. You are a flirt and like to mingle with men. You are also very truthful and righteous. You are sometimes childish.

Upagraha Report

Upagrahas, in Vedic astrology, is a topic less discussed by modern-day astrologers. Certain upagrahas like Gulika and Kaala are a bit difficult to calculate, and therefore they are less involved in birth chart analysis these days. **Feelastro** uses a precise calculation technique prescribed by valid texts related to Vedic astrology. **Gulika** is used widely by astrologers in South India and is also an essential part of Prashna Kundali. Upagrahas can be seen as shadowy energy developed by major planets, generally malefic in nature. However, Upagrahas can deliver positive results when posited in upachaya houses (3rd, 6th, 10th and 11th houses). According to **Phaladeepika**, **Gulika** can bestow strong Raj Yogas with specific placements/combinations in Rashi and Navamsa charts.

You are **compatible** with people born with a birth number of 2, 3, 7, and 8.

Fate number 2 says more about unexpected turns. You are intuitive and spiritual, and it is easy for you to analyze another person. However, there are chances that you will fall into the trap of others who may cheat or deceive you. Fate Number 2 also denotes a mystery of an unknown future. Since you are intuitive, it will be good to practice caution in your actions. You can face any challenges in your life and turn any misfortune into a great fortune. People born with fate number 2 can make or change their destiny if they are determined.

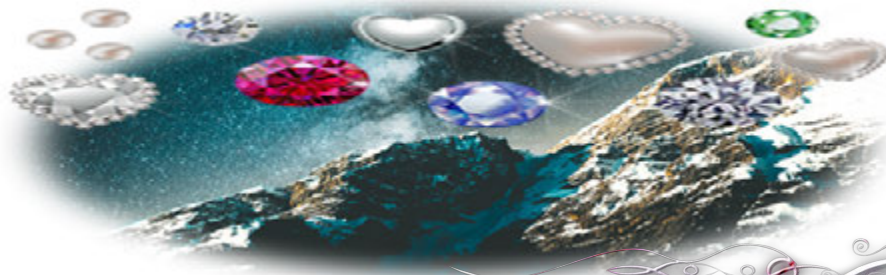

You are born with a Master Number 11 as Fate Number

Master numbers 11, 22 and 33 are the highest version of 2, 4 and 6, respectively. People born under the master numbers show double the effects these lower numbers offer. According to ancient Numerology, people with a master number as fate number are pre-destined to be born in this world for higher reasons/purposes. Master numbers

are not very common. For example, the number 33 is scarce to be seen.

Master Number 11 is the magnified version of **number 2**. People born in this master number will be visionary, highly intuitive, spiritual, and connected with supernatural elements. You have a higher understanding of metaphysical matters that no one will be able to envision or comprehend. It would be best if you learned to contain your gifts, use them wisely for your good, and not become confused, overly confident or proud.

Gemstone Recommendation

Gemstones have been considered the most effective astrological remedies since ancient times. These stones are believed to have the ability to absorb cosmic energy emitted by our nine astrological planets through Sun's light rays. Since each stone's structure and composition is tuned to connect with its specific planet, it is imperative to identify the right stone by carefully analysing a birth chart. Simply choosing a gemstone by Lagna or Moon sign or Birth Nakshatra may harm the wearer.

Feelastro is using the **Anukul Graha** method of gem recommendation. We have also further refined our calculations by analyzing dasa period, Yoga Karaka Planet's presence in the horoscope, malefic conjunctions and aspects over anukul graha and strength of the planets by shadbala points.

Lagna Lord	Moon
Lagna Lord's Shadbala Ratio	1.05
5th Lord	Mars
5th Lord's Shadbala Ratio	1.74
9th Lord	Jupiter
9th Lord's Shadbala Ratio	1.14
Rashi Lord	Jupiter
Rashi Lord's Shadbala Ratio	1.14
Yoga Karaka Planet	Mars
Current Mahadasha	Venus
Current Mahadasha End Date	2031-08-20 03:29:22

Note: A planet with shadbala ratio below 1 is considered weak

Analysis

Your 9th, 5th, Lagna Lord and Rashi Lord are all in good dignity, hence **Moon** which is low in Shadbala strength compared to other anukool grahas is chosen planet and **Pearl** is chosen as recommended gemstone.

Instructions

Choose a **Pearl** of **5 carats** and set it on a **Silver Ring** with an open setting. **Monday** morning, 15 minutes after Sunrise and before 8 am, should be chosen while wearing the stone for the first time. Cleanse your Body and Mind properly before wearing the stone. Prepare your Mind by meditation, prayers etc., according to your belief, faith or practices. Wear the ring on your **left-hand ring finger**.

Note: Alternatively, you may choose a **Monday night** falling on **Shukla Paksha** (Waxing moon or brighter side of Moon) for wearing the stone for the first time.

Rudraksha Recommendation

Rudraksha is a beautiful gift provided by Nature. Unlike gemstones, Rudraksha is more spiritual and balanced. There are many properties in Rudraksha that are very useful for us in terms of mental, physical and spiritual health. Reference to Rudraksha can be dated back to early Vedic yugas and was usually worn by Sages or people with spiritual inclination. According to Sanskrit, Rudra means **Lord Shiva** and Aksha mean tears or eyes. From our ancient times, Rudraksha carried a sacred power and value. Rudraksha also has many medicinal powers, according to Ayurveda texts. Rudraksha contains dielectric properties like we usually see in electronic devices such as capacitors, where it stores energy for use when a boost of energy level is required. Generally, Rudraksha does not give the wearer any side effects so you may choose a Rudraksha of any type. However, it is highly recommended to consult an Astrologer with knowledge in Rudraksha therapy if you plan to use Rudraksha for particular purposes. **Feelastro** calculates an appropriate Rudraksha for you based on your birth data.

5 Mukhi/5 Faced Rudraksha

Choose an auspicious muhurat during a **Monday**. You may also choose a Monday with **Punarvasu, Vishaka or Purva Bhadrapada** Nakshatra. It is essential to buy a certified Rudraksha from a reputed seller as many imitations are readily available in the market. Remember, a Rudraksha is very pure and spiritual, so following the path of good karma while wearing this will be beneficial. You may choose silver or gold while making the pendant of Rudraksha. It can be worn as a chain or as a bracelet.

Ishta Devata

From time immemorial, liberation has been the principal theme of human existence. Liberation, popularly known as *Moksha*, *Mukti* or *salvation*, is the supreme end of human life. *Avidya* (ignorance) & *Karma* (actions) entangle us in this mortal body. Therefore a person forgets his true spiritual nature and identifies himself with the needs of the body and desires of the mind. Hence our soul seeks the pleasures of this world rather than the ultimate reality. One can perform the quest for the divine only through the path of *Vairagya* (without desires/ attachment) because *yoga* (union with God) & *bhoga* (sense enjoyment) cannot coexist. Your *Ishta Devata* (Favourite Deity) is a personal divine guide and protector for your life in this world. In Vedic Astrology, *Ishta Devata* is mentioned along with a person's Moksha or Salvation. In other words, Your attachment, love and devotion towards your *Ishta Devata* will create a bond between your soul and the Supreme divinity. The more you are attached to your *Ishta Devata*, the more you be serene, happy and prosperous in this living world, and you will also learn the true meaning of your life.

Maha Vishnu

Calculation Details

Ishta Devata (Favorite Deity based on Astrology) is calculated based on Karakamsa as the reference point. Karakamsa is the Rashi sign in Navamsa (D9) chart where your Atmakaraka Planet is situated. 12th House from Karakamsa is the house related to Moksha or Liberation which is known as **Jivanmuktamsa**. To check your favorite Deity, see if any planet is posited in that particular house. Deity connected with this planet will be your favorite Deity. Worshiping this Deity will give you many positive results in life. If there are multiple planets in that Rashi, then the strongest one among them is chosen. If there is no Planet in that Rashi, then the Rashi lord is taken.

Your selected Rashi **Libra** contains 2 planets - **Mercury** and **Ketu**. And **Mercury** which is in its friendly Rashi is chosen

Maha Vishnu, or **Narayan**, is the supreme God and one among the divine trinity of Brahma-Vishnu-Maheshwara. Maha Vishnu is the sustainer or preserver of this Universe. The 12 zodiac signs in astrology are depicted as the parts of the body of

Kaal Purush, who is Maha Vishnu himself. Devi Lakshmi is the consort and Shakti or divine energy of Maha Vishnu. Maha Vishnu keeps the proper balance between good and evil in the Universe, and he descends into the living world by taking the form of an avatar to preserve cosmic order and peace. Sri Krishna, considered the poorna avatar or complete incarnation of Maha Vishnu, is one of the most worshipped deities worldwide among Hindu traditions. In his Bagavan Swaroop or the original God form, Maha Vishnu is also widely worshipped in Hinduism.

There are various Mantras in popular cultures to please Maha Vishnu, and you may regularly use them with proper devotion.

Mool Mantra:

ॐ नमोः नारायणाय ॥

ॐ Namoh Narayanaya ॥

Gayatri Mantra:

ॐ श्री वशिष्ठे च वदिमहे वासुदेवाय धीमहि । तन्नो वशिष्ठः प्रचोदयात् ॥

ॐ Shri Vishnave Cha Vidmahe Vasudevaya Dhimahi । Tanno Vishnuh Prachodayat ॥

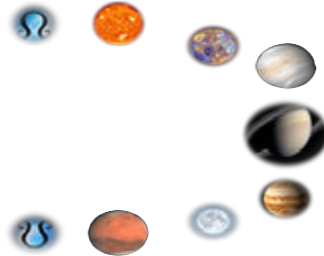

Vishnu Mantra:

ॐ नमोः भगवते वासुदेवाय ॥

ॐ Namoh Bhagawate Vasudevaya ॥

Dosha Analysis

Kaal Sarp Dosha

Kaal Sarp Yoga or Kaal Sarp Dosha is formed when all the seven planets are hemmed between Rahu and Ketu. There are 12 types of Kaal Sarp Yoga formed while Rahu is posited in each house. It is essential to understand the calculation involved in Kaal Sarp Yoga, as it is a common mistake that people make by just looking at the birth chart and judging the formation of Kaal Sarp Yoga. If a planet is in conjunction with Rahu, then a degree wise analysis is required to confirm if the planet is really "inside" or hemmed between Rahu and Ketu.

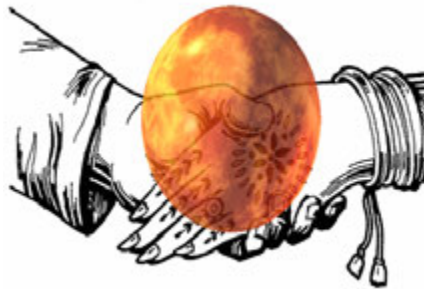

Important Note: The reference of Kaal Sarp Dosha is not there in any known valid scripts related to Vedic Astrology. Most modern-day scholars in Vedic Astrology are **not** in agreement with this planetary combination forming a yoga.

Feelastro is providing this calculated report as per the interests of general readers, and we do not support the concepts of Kaal Sarp Yoga.

Kuja Dosha (Mangal Dosha)

Mars is the planet that is generally against marital bliss. The fundamental characteristic of Mars is high physical activity. Mars is also considered less emotional and short-tempered. The **7th house** in a person's birth chart represents marriage union. When a malefic Mars associates with the 7th house through placement or aspect (drishti), Mars will negatively influence the person's marital life. Mars in 8th house is also considered Kuja Dosha since it is affecting the wellness of your spouse. On the other hand, a functionally benefic Mars posited in a friendly sign, and aspecting 7th house can bring happiness in married life. There are many **exemptions** to the rule causing Kuja dosha, as mentioned in some Astrological treatises; however, not all exemptions are seen as functioning correctly in real life.

Feelastro is only considering the most applicable exemptions towards the calculation of Kuja Dosha.

Analysis

Mars is posited in Bhava (house): **10**.

Result: Kuja Dosha is **not present** in your horoscope

Special Yoga/Dosh Analysis

This area of report contains deeper analysis related to some specific yoga and dosh seen in your horoscope. Certain yoga in a horoscope can either become negative or positive in a person's life. Most of these yogas work on the Karmic plane and in order to activate these yogas, one must be spiritually enlightened and be in tune with their soul's purposes. The outcome of these yogas **highly depends on a person's Karma**, actions, decisions and lifestyle. Certain yoga like **Ganesha yoga**, which is also known as Kela Yoga or Corepati Yoga, can produce excellent results which no other Raja Yoga can provide. However, a person who is not spiritually enlightened or follows a negative Karma may end up seeing highly challenging events in their life if any of these yogas present in their horoscope.
